

2014 NATIONAL CONFERENCE

Melbourne, March 15-16

The Australian Lacrosse Association is proud to present the 2014 National Lacrosse Conference for **Coaches** and **Officials**.

The conference has been established to further develop the skills and knowledge of all our Coaches and Officials.

Keynote speakers will include current **Australian Team Coaches**, along with professional coaches and officials from other sporting codes. Some of the presentations will feature current and former **Australian players** and **Coaches** who are experts in their fields.

The National Conference will feature three education streams: Men's, Women's and Officials – this will ensure we are delivering the information that you want.

You can find more information at www.lacrosse.com.au or on our [Facebook](#) page.

The **Coaching** presentations have been split into a Men's and Women's Stream, and will feature a mixture of Tactical and Skill focused presentations with a particular focus on some of the specialist positions of Goalkeeper, Face-Off and Centre Draws and ways you can incorporate skill development for specialist players into your coaching sessions.

The **Officiating** stream will look into the **game day** mechanics and skills required for all officials to advance their skills and move up the Officials Pathway towards National Championships and International Events.

These will be delivered in a mix of practical field based demonstrations, and more traditional lecture style presentations.

“

Well done! The fact that you sourced presenters who occupied high profile positions within our sport was well done.

The areas the conference covered were well thought out as a fantastic starting point to really develop lacrosse on a skill level.
